WORK EXPERIENCE

Software Engineer

Bug Finder

04/2022 - Present

Uttara, Dhaka, Bangladesh

Bug Finder is one of the fastest growing Elite Author in envato marketplace.

Achievements/Tasks

- **Optimized Database Queries** : Improved query execution time through efficient indexing and query restructuring in a high-traffic application.
- **API Development** : Designed and implemented RESTful APIs, enhancing data exchange speed and integrating third-party services seamlessly.
- **Laravel Migration** : Led the migration of a legacy codebase to Laravel, improving maintainability, scalability, and performance.
- **Performance Optimization** : Enhanced server response time through caching strategies and database optimization, resulting in an improved user experience.
- **Third-Party Integrations** : Integrated multiple third-party APIs (payment gateways, bill services) into the application, enhancing functionality and user experience.
- **Monitoring & Logging** : Set up application performance monitoring and centralized logging systems, improving error tracking.
